

Find Cracks with **W-Series** Crack Detectors

No matter the type of your Automotive or Mobile Equipment Inspection needs, W-Series products offer you the right Portable Magnetic Particle Inspection (MPI) Tools. W-Series Yokes and Coils induce a strong magnetic field into your suspect component, so when Inspection Powder is applied, defects appear immediately.

Find Surface and Hidden Defects before problem components are installed and fail in service.

Test Heads quickly and simply with the WC-5 Fixed Leg Yoke
